THE HERSHEY COMPANY
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except share data or if otherwise indicated)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited consolidated financial statements provided in this report include the accounts of The Hershey Company (the “Company,” “Hershey,” “we” or “us”) and our majority-owned subsidiaries and entities in which we have a controlling financial interest after the elimination of intercompany accounts and transactions. We have a controlling financial interest if we own a majority of the outstanding voting common stock and minority shareholders do not have substantive participating rights, we have significant control through contractual or economic interests in which we are the primary beneficiary or we have the power to direct the activities that most significantly impact the entity’s economic performance. We use the equity method of accounting when we have a 20% to 50% interest in other companies and exercise significant influence. Other investments that are not controlled, and over which we do not have the ability to exercise significant influence, are accounted for under the cost method. Both equity method investments and cost, less impairment, investments are included as Other non-current assets in the Consolidated Balance Sheets.

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial reporting and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not contain certain information and disclosures required by GAAP for comprehensive financial statements. The financial statements reflect all adjustments (consisting of normal recurring adjustments) which are, in our opinion, necessary for a fair presentation of the results of operations, financial position, and cash flows for the indicated periods.

Operating results for the quarter ended March 30, 2025 may not be indicative of the results that may be expected for the year ending December 31, 2025 because of seasonal effects on our business. These financial statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2024 (our “2024 Annual Report on Form 10-K”), which provides a more complete understanding of our accounting policies, financial position, operating results and other matters.

Recent Accounting Pronouncements

Recently Adopted Accounting Pronouncements

In November 2023, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. This ASU requires disclosure of significant segment expenses that are regularly provided to the chief operating decision maker (“CODM”), an amount for other segment items with a description of the composition, and disclosure of the title and position of the CODM. ASU 2023-07 is effective for annual periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. We adopted the provisions of this ASU in the fourth quarter of 2024 and applied the provisions retrospectively to each period presented in the consolidated financial statements. Adoption of the new standard did not have a material impact on our consolidated financial statements.

Recently Issued Accounting Pronouncements Not Yet Adopted

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. This ASU requires public business entities on an annual basis to disclose specific categories in a tabular rate reconciliation and provide additional information for reconciling items that meet a five percent quantitative threshold. Additionally, the ASU requires all entities to disclose the amount of income taxes paid disaggregated by federal, state, and foreign taxes, as well as individual jurisdictions where income taxes paid are equal to or greater than five percent of total income taxes paid. ASU 2023-09 is effective for annual periods beginning after December 15, 2024. Early adoption is permitted and the update should be applied on a prospective basis, with a retrospective application permitted in the financial statements. We are currently evaluating the impact of the new standard on our consolidated financial statements and related disclosures. As a result, we intend to adopt the provisions of this ASU in the fourth quarter of 2025.

THE HERSHEY COMPANY
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(amounts in thousands, except share data or if otherwise indicated)

In November 2024, the FASB issued ASU No. 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. This ASU requires entities to disclose certain additional expense information including, among other items, purchases of inventory, employee compensation, depreciation and intangible asset amortization included within each Consolidated Statement of Income expense caption. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Early adoption is permitted and the update should be applied on a prospective basis, with a retrospective application permitted in the financial statements. We are currently evaluating the impact of the new standard on our consolidated financial statements and related disclosures.

No other new accounting pronouncement issued or effective during the fiscal year had or is expected to have a material impact on our consolidated financial statements or disclosures.

2. BUSINESS ACQUISITIONS

LesserEvil, LLC

On March 31, 2025, we entered into a Merger Agreement to acquire LesserEvil, LLC, a privately held company that produces and sells organic popcorn and puffed snack products to retailers and distributors in the United States and Canada, which complements Hershey's existing product portfolio. The Merger Agreement contains customary conditions, including, among others, (i) the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, (ii) the absence of any law or order prohibiting the consummation of the transactions contemplated in the Merger Agreement and (iii) the accuracy, to specified degrees, of representations and warranties set forth therein and material compliance with covenants. If approved, the Company expects the acquisition to close by mid-2025 and will be financed with of cash on hand and short-term borrowings.

Sour Strips

On November 8, 2024, we completed the acquisition of the Sour Strips brand from Actual Candy, LLC. Sour Strips is an emerging sour candy brand and is available in a wide range of food distribution channels in the United States. The initial cash consideration paid for Sour Strips was deemed immaterial and consisted of cash on hand and short-term borrowings; however, the Company may be required to pay additional contingent consideration if certain defined targets are met over a multi-year period. Acquisition-related costs for the Sour Strips acquisition were immaterial.

The acquisition has been accounted for as a business combination and, accordingly, Sour Strips has been included within the North America Confectionery segment from the date of acquisition. The purchase consideration, inclusive of the acquisition date fair value of the contingent consideration, was allocated to minimal net assets acquired, goodwill and other intangible assets. The first quarter of 2025 includes an immaterial amount of measurement period adjustments to the initial allocation. We are in process of evaluating additional information necessary to finalize the valuation of assets acquired and liabilities assumed as of the acquisition date. We expect to finalize the purchase price allocation by mid-2025.

Goodwill was determined as the excess of the purchase price over the fair value of the net assets acquired (including the identifiable intangible assets). The goodwill derived from this acquisition is expected to be deductible for tax purposes and reflects the value of leveraging our brand building expertise, commercial capabilities and retail relationships to accelerate growth.

Other intangible assets include trademarks valued at \$41,800 and customer relationships valued at \$41,300. Trademarks were assigned an estimated useful life of 22 years and customer relationships were assigned estimated useful lives ranging from 14 to 16 years.

Total amortization expense for the three months ended March 30, 2025 and March 31, 2024 was \$20,568 and \$19,554, respectively.

4. SHORT AND LONG-TERM DEBT

Short-term Debt

As a source of short-term financing, we utilize cash on hand and commercial paper or bank loans with an original maturity of three months or less. We maintain a \$1.35 billion unsecured revolving credit facility with the option to increase borrowings by an additional \$500 million with the consent of the lenders. The credit facility is scheduled to expire on April 26, 2028; however, we may extend the termination date for up to two additional one-year periods upon notice to the administrative agent.

The credit agreements governing the credit facility contain certain financial and other covenants, customary representations, warranties and events of default. As of March 30, 2025, we were in compliance with all covenants pertaining to the credit facility, and we had no significant compensating balance agreements that legally restricted access to these funds. For more information, refer to the Consolidated Financial Statements included in our 2024 Annual Report on Form 10-K.

In addition to the revolving credit facility, we maintain lines of credit with domestic and international commercial banks. Commitment fees relating to our revolving credit facility and lines of credit are not material. Short-term debt consisted of the following:

5. DERIVATIVE INSTRUMENTS

We are exposed to market risks arising principally from changes in foreign currency exchange rates, interest rates and commodity prices. We use certain derivative instruments to manage these risks. These include interest rate swaps to manage interest rate risk, foreign currency forward exchange contracts to manage foreign currency exchange rate risk, and commodities futures and options contracts to manage commodity market price risk exposures.

In entering into these contracts, we have assumed the risk that might arise from the possible inability of counterparties to meet the terms of their contracts. We mitigate this risk by entering into exchange-traded contracts with collateral posting requirements and/or by performing financial assessments prior to contract execution, conducting periodic evaluations of counterparty performance and maintaining a diverse portfolio of qualified counterparties. We do not expect any significant losses from counterparty defaults.

Commodity Price Risk

We enter into commodities futures and options contracts and other commodity derivative instruments to reduce the effect of future price fluctuations associated with the purchase of raw materials, energy requirements and transportation services. We generally hedge commodity price risks for 3- to 24-month periods. Our open commodity derivative contracts had a notional value of \$274,738 as of March 30, 2025 and \$667,421 as of December 31, 2024.

Derivatives used to manage commodity price risk are not designated for hedge accounting treatment. Therefore, the changes in fair value of these derivatives are recorded as incurred within cost of sales. As discussed in [Note 13](#), we define our segment income to exclude gains and losses on commodity derivatives until the related inventory is sold, at which time the related gains and losses are reflected within segment income. This enables us to continue to align the derivative gains and losses with the underlying economic exposure being hedged and thereby eliminate the mark-to-market volatility within our reported segment income.

Foreign Exchange Price Risk

We are exposed to foreign currency exchange rate risk related to our international operations, including non-functional currency intercompany debt and other non-functional currency transactions of certain subsidiaries. Principal currencies hedged include the euro, Canadian dollar, Japanese yen, British pound, Brazilian real, Malaysian ringgit, Mexican peso and Swiss franc. We typically utilize foreign currency forward exchange contracts to hedge these exposures for periods ranging from 3 to 18 months. The contracts are either designated as cash flow hedges or are undesignated. The net notional amount of foreign exchange contracts accounted for as cash flow hedges was \$102,965 at March 30, 2025 and \$79,028 at December 31, 2024. The effective portion of the changes in fair value on these contracts is recorded in other comprehensive income and reclassified into earnings in the same period in which the hedged transactions affect earnings. The net notional amount of foreign exchange contracts that are not designated as accounting hedges was \$95,887 at March 30, 2025 and \$123,014 at December 31, 2024. The change in fair value on these instruments is recorded directly in cost of sales or selling, marketing and administrative (“SM&A”) expense, depending on the nature of the underlying exposure.

Interest Rate Risk

In order to manage interest rate exposure, from time to time, we enter into interest rate swap agreements to protect against unfavorable interest rate changes relating to forecasted debt transactions. These swaps, which are settled upon issuance of the related debt, are designated as cash flow hedges and the gains and losses that are deferred in other comprehensive income are being recognized as an adjustment to interest expense over the same period that the hedged interest payments affect earnings.

Equity Price Risk

We are exposed to market price changes in certain broad market indices related to our deferred compensation obligations to our employees. To mitigate this risk, we use equity swap contracts to hedge the portion of the exposure that is linked to market-level equity returns. These contracts are not designated as hedges for accounting purposes and are entered into for periods of 3 to 12 months. The change in fair value of these derivatives is recorded in selling, marketing and administrative expense, together with the change in the related liabilities. The notional amount of the contracts outstanding at March 30, 2025 and December 31, 2024 was \$31,391 and \$30,524, respectively.

- (1) Derivative assets are classified on our Consolidated Balance Sheets within prepaid expenses and other as well as other non-current assets. Derivative liabilities are classified on our Consolidated Balance Sheets within accrued liabilities and other long-term liabilities.
- (2) As of March 30, 2025, amounts reflected on a net basis in assets were assets of \$311,408 and liabilities of \$74,132, which are associated with cash transfers receivable or payable on commodities futures contracts reflecting the change in quoted market prices on the last trading day for the period. The comparable amounts reflected on a net basis in liabilities at December 31, 2024 were assets of \$533,115 and liabilities of \$32,998. At March 30, 2025 and December 31, 2024, the remaining amount reflected in assets and liabilities related to the fair value of other non-exchange traded derivative instruments, respectively.

Income Statement Impact of Derivative Instruments

The effect of derivative instruments on the Consolidated Statements of Income for the three months ended March 30, 2025 and March 31, 2024 was as follows:

	Non-designated Hedges		Cash Flow Hedges			
	Gains (losses) recognized in income (a)		Gains (losses) recognized in other comprehensive income ("OCI")		Gains (losses) reclassified from accumulated OCI ("AOCI") into income (b)

- (a) Gains (losses) recognized in income for non-designated commodities futures and options contracts were included in cost of sales. Gains (losses) recognized in income for non-designated foreign currency forward exchange contracts and deferred compensation derivatives were included in selling, marketing and administrative expenses.
- (b) Gains (losses) reclassified from AOCI into income for foreign currency forward exchange contracts were included in selling, marketing and administrative expenses. Losses reclassified from AOCI into income for interest rate swap agreements were included in interest expense.

THE HERSHEY COMPANY
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(amounts in thousands, except share data or if otherwise indicated)

The amount of pre-tax net loss on derivative instruments, including interest rate swap agreements and foreign currency forward exchange contracts expected to be reclassified into earnings in the next 12 months was approximately \$5,361 as of March 30, 2025. This amount is primarily associated with interest rate swap agreements.

6. FAIR VALUE MEASUREMENTS

Accounting guidance on fair value measurements requires that financial assets and liabilities be classified and disclosed in one of the following categories of the fair value hierarchy:

Level 1 – Based on unadjusted quoted prices for identical assets or liabilities in an active market.

Level 2 – Based on observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 – Based on unobservable inputs that reflect the entity's own assumptions about the assumptions that a market participant would use in pricing the asset or liability.

We did not have any Level 3 financial assets or liabilities, nor were there any transfers between levels during the periods presented.

The following table presents assets and liabilities that were measured at fair value in the Consolidated Balance Sheets on a recurring basis as of March 30, 2025 and December 31, 2024:

	Assets / Liabilities			
	Level 1	Level 2	Level 3	Total
March 30, 2025:				
Derivative Instruments:				
Assets:				
Foreign exchange contracts (1)	\$ —	\$ 5,225	\$ —	\$ 5,225
Commodities futures and options (3)	\$ 242,791	\$ —	\$ —	\$ 242,791
Liabilities:				
Foreign exchange contracts (1)	\$ —	\$ 1,545	\$ —	\$ 1,545
Deferred compensation derivatives (2)	—	1,886	—	1,886
Commodities futures and options (3)	\$ 8,424	\$ —	\$ —	\$ 8,424
December 31, 2024:				
Assets:				
Foreign exchange contracts (1)	\$ —	\$ 8,761	\$ —	\$ 8,761
Deferred compensation derivatives (2)	\$ —	\$ 460	\$ —	\$ 460
Commodities futures and options (3)	\$ 514,623	\$ —	\$ —	\$ 514,623
Liabilities:				
Foreign exchange contracts (1)	\$ —	\$ 8,080	\$ —	\$ 8,080
Commodities futures and options (3)	\$ 14,321	\$ —	\$ —	\$ 14,321

(1) The fair value of foreign currency forward exchange contracts is the difference between the contract and current market foreign currency exchange rates at the end of the period. We estimate the fair value of foreign currency forward exchange contracts on a quarterly basis by obtaining market quotes of spot and forward rates for contracts with similar terms, adjusted where necessary for maturity differences.

(2) The fair value of deferred compensation derivatives is based on quoted prices for market interest rates and a broad market equity index.

(3) The fair value of commodities futures and options contracts is based on quoted market prices.

Other Financial Instruments

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable and short-term debt approximated fair values as of March 30, 2025 and December 31, 2024 because of the relatively short maturity of these instruments.

The estimated fair value of our long-term debt is based on quoted market prices for similar debt issues and is, therefore, classified as Level 2 within the valuation hierarchy. The fair values and carrying values of long-term debt, including the current portion, were as follows:

	Fair Value		Carrying Value	
	March 30, 2025	December 31, 2024	March 30, 2025	December 31, 2024
Current portion of long-term debt	\$ 600,324	\$ 597,547	\$ 603,617	\$ 604,965
Long-term debt	4,778,927	2,734,322	5,177,251	3,190,210
Total	\$ 5,379,251	\$ 3,331,869	\$ 5,780,868	\$ 3,795,175

Other Fair Value Measurements

In addition to assets and liabilities that are recorded at fair value on a recurring basis, GAAP requires that, under certain circumstances, we also record assets and liabilities at fair value on a nonrecurring basis.

2024 Activity

In connection with the acquisition of Sour Strips in 2024, as discussed in [Note 2](#), we used various valuation techniques to determine fair value, with the primary techniques being discounted cash flow analysis and the relief-from-royalty, a form of the multi-period excess earnings, which use significant unobservable inputs, or Level 3 inputs, as defined by the fair value hierarchy. Additionally, we estimated the fair value of the contingent consideration using a Monte Carlo simulation model.

7. LEASES

We lease office and retail space, warehouse and distribution facilities, land, vehicles, and equipment. We determine if an agreement is or contains a lease at inception. Leases with an initial term of 12 months or less are not recorded on the consolidated balance sheet.

Right-of-use (“ROU”) assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. ROU assets and liabilities are based on the estimated present value of lease payments over the lease term and are recognized at the lease commencement date.

As most of our leases do not provide an implicit rate, we use our estimated incremental borrowing rate in determining the present value of lease payments. The estimated incremental borrowing rate is derived from information available at the lease commencement date.

Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. A limited number of our lease agreements include rental payments adjusted periodically for inflation. Our lease agreements generally do not contain residual value guarantees or material restrictive covenants.

For real estate, equipment and vehicles that support selling, marketing and general administrative activities, the Company accounts for the lease and non-lease components as a single lease component. These asset categories comprise the majority of our leases. The lease and non-lease components of real estate and equipment leases supporting production activities are not accounted for as a single lease component. Consideration for such contracts are allocated to the lease and non-lease components based upon relative standalone prices either observable or estimated if observable prices are not readily available.

8. INVESTMENTS IN UNCONSOLIDATED AFFILIATES

We invest in partnerships that make equity investments in projects eligible to receive federal historic and renewable energy tax credits. The tax credits, when realized, are recognized as a reduction of tax expense under the flow-through method, at which time the corresponding equity investment is written-down to reflect the remaining value of the future benefits to be realized. The equity investment write-down is reflected within other (income) expense, net in the Consolidated Statements of Income (see [Note 17](#)).

Additionally, we acquire ownership interests in emerging snacking businesses and startup companies, which vary in method of accounting based on our percentage of ownership and ability to exercise significant influence over decisions relating to operating and financial affairs. These investments afford the Company the rights to distribute brands that the Company does not own to third-party customers primarily in North America. Net sales and expenses of our equity method investees are not consolidated into our financial statements; rather, our proportionate share of earnings or losses are recorded on a net basis within other (income) expense, net in the Consolidated Statements of Income.

Both equity method investments and cost, less impairment, investments are reported within other non-current assets in our Consolidated Balance Sheets. We regularly review our investments and adjust accordingly for capital contributions, dividends received and other-than-temporary impairments. Total investments in unconsolidated affiliates were \$209,578 and \$212,928 as of March 30, 2025 and December 31, 2024, respectively.

9. BUSINESS REALIGNMENT ACTIVITIES

We periodically undertake business realignment activities designed to increase our efficiency and focus our business in support of our key growth strategies.

Advancing Agility & Automation Initiative

On February 2, 2024, the Board of Directors of the Company approved a multi-year productivity initiative (“Advancing Agility & Automation Initiative” or “AAA Initiative”) to improve supply chain and manufacturing-related spend, optimize selling, general and administrative expenses, leverage new technology and business models to further simplify and automate processes, and generate long-term savings.

The Company estimates that the AAA Initiative will result in total pre-tax costs of \$200,000 to \$250,000 from inception through 2026. This estimate primarily includes program office execution and third-party costs supporting the design and implementation of the new organizational structure of \$100,000 to \$120,000, as well as implementation and technology capability costs of \$55,000 to \$70,000. Additionally, we expect to incur employee severance and related separation benefits of \$45,000 to \$60,000 as we facilitate workforce reductions and reallocate resources to further drive the Company’s strategic priorities. The cash portion of the total cost is estimated to be \$175,000 to \$225,000. At the conclusion of the program in 2026, ongoing annual savings are expected to be approximately \$300,000 to \$350,000.

Since inception through March 30, 2025, we recognized total costs associated with the AAA Initiative of \$143,390. These charges predominantly included employee severance and related separation benefits related to workforce reductions and third-party costs supporting the design and implementation of the new organizational structure, as well as technology capability costs. The costs and related benefits of the AAA Initiative predominantly relates to the North America Confectionery segment and Corporate. However, segment operating results do not include these business realignment expenses because we evaluate segment performance excluding such costs.

Costs associated with business realignment activities are classified in our Consolidated Statements of Income as follows:

	Three Months Ended	
	March 30, 2025	March 31, 2024
Cost of sales	\$ —	\$ 2,612
Selling, marketing and administrative expense	9,480	14,054
Business realignment costs	16,374	—
Costs associated with business realignment activities	<u>\$ 25,854</u>	<u>\$ 16,666</u>

Costs recorded by program during the three months ended March 30, 2025 and March 31, 2024 related to these activities were as follows:

	Three Months Ended	
	March 30, 2025	March 31, 2024
Advancing Agility & Automation Initiative:		
Severance and employee benefit costs	\$ 16,374	\$ —

(1) The liability balances reflected above are reported within accrued liabilities and other long-term liabilities.

(2) The costs reflected in the liability roll-forward represent employee-related charges.

10. INCOME TAXES

The majority of our taxable income is generated in the United States and taxed at the United States statutory rate of 21%. The effective tax rates for the three months ended March 30, 2025 and March 31, 2024 were 30.7% and 19.1%, respectively. Relative to the statutory rate, the 2025 effective tax rate was primarily impacted by foreign rate differential and state taxes.

The Company and its subsidiaries file tax returns in the United States, including various state and local returns, and in other foreign jurisdictions. We are routinely audited by taxing authorities in our filing jurisdictions, and a number of these disputes are currently underway, including multi-year controversies at various stages of review, negotiation and litigation in Mexico, Canada, Switzerland and the United States. The outcome of tax audits cannot be predicted with certainty, including the timing of resolution or potential settlements. If any issues addressed in our tax audits are resolved in a manner not consistent with management's expectations, we could be required to adjust our provision for income taxes in the period such resolution occurs. Based on our current assessments, we believe adequate provision has been made for all income tax uncertainties. We reasonably expect reductions in the liability for unrecognized tax benefits of approximately \$17,885 within the next 12 months because of the expiration of statutes of limitations and settlements of tax audits.

11. PENSION AND OTHER POST-RETIREMENT BENEFIT PLANS

Net Periodic Benefit Cost

The components of net periodic benefit cost for the three months ended March 30, 2025 and March 31, 2024 were as follows:

	Pension Benefits		Other Benefits	
	Three Months Ended		Three Months Ended	
	March 30, 2025	March 31, 2024	March 30, 2025	March 31, 2024

Total net periodic benefit cost	\$ 3,375	\$ 3,168	\$ 1,474	\$ 1,353

We made contributions of \$689 and \$2,437 to the pension plans and other benefits plans, respectively, during the first quarter of 2025. In the first quarter of 2024, we made contributions of \$816 and \$1,592 to our pension plans and other benefit plans, respectively. The contributions in 2025 and 2024 also included benefit payments from our non-qualified pension plans and post-retirement benefit plans.

The non-service cost components of net periodic benefit cost relating to pension and other post-retirement benefit plans is reflected within other (income) expense, net in the Consolidated Statements of Income (see [Note 17](#)).

12. STOCK COMPENSATION PLANS

Share-based grants for compensation and incentive purposes are made pursuant to the Equity and Incentive Compensation Plan (“EICP”). The EICP provides for grants of one or more of the following stock-based compensation awards to employees, non-employee directors and certain service providers upon whom the successful conduct of our business is dependent:

- Non-qualified stock options (“stock options”);
- Performance stock units (“PSUs”) and performance stock;
- Stock appreciation rights;
- Restricted stock units (“RSUs”) and restricted stock; and
- Other stock-based awards.

The EICP also provides for the deferral of stock-based compensation awards by participants if approved by the Compensation and Human Capital Committee of our Board and if in accordance with an applicable deferred compensation plan of the Company. Currently, the Compensation and Human Capital Committee has authorized the deferral of PSU and RSU awards by certain eligible employees under the Company’s Deferred Compensation Plan. Our Board has authorized our non-employee directors to defer any portion of their cash retainer, committee chair fees and RSUs awarded that they elect to convert into deferred stock units under our Directors’ Compensation Plan.

At the time stock options are exercised or PSUs and RSUs become payable, Common Stock is issued from our accumulated treasury shares. Dividend equivalents are credited on RSUs on the same date and at the same rate as dividends paid on our Common Stock. Dividend equivalents are charged to retained earnings and included in accrued liabilities until paid.

Awards to employees eligible for retirement prior to the award becoming fully vested are amortized to expense over the period through the date that the employee first becomes eligible to retire and is no longer required to provide service to earn the award. In addition, historical data is used to estimate forfeiture rates and record share-based compensation expense only for those awards that are expected to vest.

For the periods presented, compensation expense for all types of stock-based compensation programs and the related income tax benefit recognized were as follows:

	Three Months Ended	
	March 30, 2025	March 31, 2024
Pre-tax compensation expense	\$ 13,559	\$ 5,986
Related income tax benefit	3,308	1,221

Compensation expenses for stock compensation plans are primarily included in SM&A expense. As of March 30, 2025, total stock-based compensation expense related to non-vested awards not yet recognized was \$105,959 and the weighted-average period over which this amount is expected to be recognized was approximately 2.1 years.

Stock Options

The exercise price of each stock option awarded under the EICP equals the closing price of our Common Stock on the New York Stock Exchange on the date of grant. Each stock option has a maximum term of 10 years. Grants of stock options provide for pro-rated vesting, typically over a four-year period. Expense for stock options is based on grant date fair value and recognized on a straight-line method over the vesting period, net of estimated forfeitures.

A summary of activity relating to grants of stock options for the period ended March 30, 2025 is as follows:

Stock Options	Shares	Weighted-Average Exercise Price (per share)	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at beginning of year	579,834	\$106.73	2.7 years	
Exercised	(30,277)	\$101.12		
Outstanding as of March 30, 2025	549,557	\$107.04	2.5 years	\$ 35,081
Options exercisable as of March 30, 2025	544,098	\$105.93	2.4 years	\$ 35,081

No options were granted for the period ended March 30, 2025. The weighted-average fair value of options granted was \$45.95 per share for the period ended March 31, 2024. The fair value was estimated on the date of grant using a Black-Scholes option-pricing model and the following weighted-average assumptions:

	Three Months Ended March 31, 2024
Dividend yields	2.0 %
Expected volatility	21.3 %
Risk-free interest rates	4.3 %
Expected term in years	6.3

The total intrinsic value of options exercised was \$1,833 and \$4,148 for the periods ended March 30, 2025 and March 31, 2024, respectively.

Performance Stock Units and Restricted Stock Units

Under the EICP, we grant PSUs to select executives and other key employees. Vesting is contingent upon the achievement of certain performance objectives. We grant PSUs over three-year performance cycles. If we meet targets for financial measures at the end of the applicable three-year performance cycle, we award a resulting number of shares of our Common Stock to the participants. The number of shares may be increased to the maximum or reduced to the minimum threshold based on the results of these performance metrics in accordance with the terms established at the time of the award.

For PSUs granted, the target award is a combination of a market-based total shareholder return and performance-based components. For market-based condition components, market volatility and other factors are taken into consideration in determining the grant date fair value and the related compensation expense is recognized regardless of whether the market condition is satisfied, provided that the requisite service has been provided. For performance-based condition components, we estimate the probability that the performance conditions will be achieved each quarter and adjust compensation expenses accordingly. The performance scores of PSU grants during the three months ended March 30, 2025 and March 31, 2024 can range from 0% to 250% of the targeted amounts.

We recognize the compensation expenses associated with PSUs ratably over the three-year term. Compensation expenses are based on the grant date fair value because the grants can only be settled in shares of our Common Stock. The grant date fair value of PSUs is determined based on the Monte Carlo simulation model for the market-based total shareholder return component and the closing market price of the Company's Common Stock on the date of grant for performance-based components.

During the three months ended March 30, 2025 and March 31, 2024, we awarded RSUs to certain executive officers and other key employees under the EICP. We also awarded RSUs to non-employee directors.

We recognize the compensation expenses associated with employee RSUs over a specified award vesting period based on the grant date fair value of our Common Stock. We recognize expense for employee RSUs based on the straight-

line method. The compensation expenses associated with non-employee director RSUs is recognized ratably over the vesting period, net of estimated forfeitures.

A summary of activity relating to grants of PSUs and RSUs for the period ended March 30, 2025 is as follows:

Performance Stock Units and Restricted Stock Units	Number of units	Weighted-average grant date fair value for equity awards (per unit)
Outstanding at beginning of year	538,803	\$204.65
Granted	420,478	\$166.02
Performance assumption change (1)	79,674	\$268.24
Vested	(273,976)	\$207.25
Forfeited	(27,134)	\$204.08
Outstanding as of March 30, 2025	737,845	\$188.55

(1) Reflects the net number of PSUs above and below target levels based on the performance metrics.

The following table sets forth information about the fair value of the PSUs and RSUs granted for potential future distribution to employees and non-employee directors. In addition, the table provides assumptions used to determine the fair value of the market-based total shareholder return component using the Monte Carlo simulation model on the date of grant.

	Three Months Ended	
	March 30, 2025	March 31, 2024
Units granted	420,478	315,389
Weighted-average fair value at date of grant	\$ 166.02	\$ 196.16
Monte Carlo simulation assumptions:		
Estimated values	\$ 65.27	\$ 84.13
Dividend yields	3.3 %	2.8 %
Expected volatility	21.7 %	18.5 %

The fair value of shares vested totaled \$46,251 and \$84,998 for the periods ended March 30, 2025 and March 31, 2024, respectively.

Deferred PSUs, deferred RSUs and deferred stock units representing directors' fees totaled 244,525 units as of March 30, 2025. Each unit is equivalent to one share of the Company's Common Stock.

13. SEGMENT INFORMATION

The Company reports its operations through three segments: (i) North America Confectionery, (ii) North America Salty Snacks and (iii) International. This organizational structure aligns with how our CODM, Michele Buck, Chairman of the Board, President, and Chief Executive Officer, manages our business, including resource allocation and performance assessment, and further aligns with our product categories and the key markets we serve.

- **North America Confectionery** – This segment is responsible for our traditional chocolate and non-chocolate confectionery market position in the United States and Canada. This includes our business in chocolate and non-chocolate confectionery, gum and refreshment products, protein bars, spreads, snack bites and mixes, as well as pantry and food service lines. This segment also includes our retail operations, including Hershey's Chocolate World stores in Hershey, Pennsylvania; New York, New York; Las Vegas, Nevada; Niagara Falls (Ontario) and Singapore, as well as operations associated with licensing the use of certain of the Company's trademarks and products to third parties around the world.
- **North America Salty Snacks** – This segment is responsible for our salty snacking products in the United States. This includes ready-to-eat popcorn, baked and trans fat free snacks, pretzels and other snacks.
- **International** – International is a combination of all other operating segments that are not individually material, including those geographic regions where we operate outside of North America. We currently have operations and manufacture product in Mexico, Brazil, India and Malaysia, primarily for consumers in these regions, and also distribute and sell confectionery products in export markets of Asia, Latin America, Middle East, Europe, Africa and other regions.

For segment reporting purposes, the CODM uses "segment income" to evaluate segment performance and allocate resources, including considering budget-to-actual variances and prior year-to-actual variances on a monthly basis. Segment income excludes unallocated general corporate administrative expenses, unallocated mark-to-market gains and losses on commodity derivatives, business realignment and impairment charges, acquisition-related costs and other unusual gains or losses that are not part of our measurement of segment performance. These items of our operating profit are managed centrally at the corporate level and are excluded from the measure of segment income reviewed by the CODM as well as the measure of segment performance used for incentive compensation purposes.

As discussed in [Note 5](#), derivatives used to manage commodity price risk are not designated for hedge accounting treatment. These derivatives are recognized at fair market value with the resulting realized and unrealized (gains) losses recognized in unallocated derivative (gains) losses outside of the reporting segment results until the related inventory is sold, at which time the related gains and losses are reallocated to segment income. This enables us to align the derivative gains and losses with the underlying economic exposure being hedged and thereby eliminate the mark-to-market volatility within our reported segment income.

Certain manufacturing, warehousing, distribution and other activities supporting our global operations are integrated to maximize efficiency and productivity. As a result, assets and capital expenditures are not managed on a segment basis and are not included in the information reported to the CODM for the purpose of evaluating performance or allocating resources. We disclose depreciation and amortization that is generated by segment-specific assets, since these amounts are included within the measure of segment income reported to the CODM.

Shares issued for stock options and incentive compensation	(213,935)	\$ (8,991)

In May 2021, our Board of Directors approved a \$500 million share repurchase authorization, which was completed as of March 31, 2024. In December 2023, our Board of Directors approved an additional \$500 million share repurchase authorization. This program commenced after the existing May 2021 authorization was completed. As a result of the share repurchase authorization, approximately \$470 million remains available for repurchases under our December 2023 share repurchase authorization. We are authorized to purchase our outstanding shares in open market and privately negotiated transactions. The program has no expiration date and acquired shares of Common Stock will be held as treasury shares. Purchases under approved share repurchase authorizations are in addition to our practice of buying back shares sufficient to offset those issued under incentive compensation plans.

15. CONTINGENCIES

The Company is subject to certain legal proceedings and claims arising out of the ordinary course of our business, which cover a wide range of matters including trade regulation, product liability, advertising, contracts, environmental issues, patent and trademark matters, labor and employment matters, human and workplace rights matters and tax. While it is not feasible to predict or determine the outcome of such proceedings and claims with certainty, in our opinion, these matters, both individually and in the aggregate, are not expected to have a material effect on our financial condition, results of operations or cash flows.

16. EARNINGS PER SHARE

We compute basic earnings per share for Common Stock and Class B common stock using the two-class method. The Class B common stock is convertible into Common Stock on a share-for-share basis at any time. The computation of diluted earnings per share for Common Stock assumes the conversion of Class B common stock using the if-converted method, while the diluted earnings per share of Class B common stock does not assume the conversion of those shares.

Item 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management’s Discussion and Analysis (“MD&A”) is intended to provide an understanding of Hershey’s financial condition, results of operations and cash flows by focusing on changes in certain key measures from year to year. This MD&A should be read in conjunction with our Unaudited Consolidated Financial Statements and accompanying notes included in this Quarterly Report on Form 10-Q for the quarterly period ended March 30, 2025 (“this Quarterly Report on Form 10-Q”). This discussion contains a number of forward-looking statements, all of which are based on current expectations. Actual results may differ materially. Refer to the Safe Harbor Statement below as well as the Risk Factors and other information contained in our 2024 Annual Report on Form 10-K for information concerning the key risks to achieving future performance goals.

The MD&A is organized in the following sections:

- [Overview](#)
- [Trends Affecting Our Business](#)
- [Consolidated Results of Operations](#)
- [Segment Results](#)
- [Liquidity and Capital Resources](#)
- [Safe Harbor Statement](#)

OVERVIEW

Hershey is a global confectionery leader known for making more moments of goodness through chocolate, sweets, mints and other great tasting snacks. We are the largest producer of quality chocolate in North America, a leading snack maker in the United States (“U.S.”) and a global leader in chocolate and non-chocolate confectionery. We market, sell and distribute our products under more than 90 brand names in approximately 70 countries worldwide.

Our principal product offerings include chocolate and non-chocolate confectionery products; gum and mint refreshment products and protein bars; pantry items, such as baking ingredients, toppings and beverages; and snack items such as spreads, bars, and snack bites and mixes, popcorn and pretzels.

Business Acquisitions

On March 31, 2025, we entered into a Merger Agreement to acquire LesserEvil, LLC, a privately held company that produces and sells organic popcorn and puffed snack products to retailers and distributors in the United States and Canada, which complements Hershey’s existing product portfolio. The Company expects the acquisition to close by mid-2025 pending the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976.

On November 8, 2024, we completed the acquisition of the Sour Strips brand from Actual Candy, LLC. Sour Strips is an emerging sour candy brand and is available in a wide range of food distribution channels in the United States.

TRENDS AFFECTING OUR BUSINESS

Throughout the first three months of 2025, we experienced a dynamic macroeconomic environment, including shifts in consumer behavior and continued price volatility related to select commodities, resulting in corresponding incremental costs and gross margin pressures, and net sales and net income declines. Despite specific actions taken to mitigate these gross margin pressures, higher prices for direct materials used to manufacture our products were, and continue to be, the primary incremental cost to our business (see [Consolidated Results of Operations](#) included in this MD&A). We utilize many exchange traded commodities for our business that are subject to price volatility, specifically cocoa products, which continued to experience elevated market prices compared to historical levels (see [Part I, Item 3 - Quantitative and Qualitative Disclosures about Market Risk](#) included in this Quarterly Report on Form 10-Q).

Furthermore, certain geopolitical events, specifically changes in global trade policies including recently announced tariffs on U.S. imports and the potential for additional tariffs, have increased global economic and political uncertainty. For the three months ended March 30, 2025, the imposition of tariffs on U.S. imports and retaliatory tariffs, did not have a material impact on our results of operations, commodity prices or supply availability. However, we are continuing to monitor the ongoing negotiations related to tariffs, specifically, goods imported into the U.S. from Canada, Mexico and other countries, as well as export markets, in which we have significant business operations, all of which may result in material adverse effects on our results of operations. The scope and length of tariffs, including their effects on the broader economy and our business, remain uncertain. These outcomes may be influenced by factors such as continued U.S. negotiations with impacted countries, retaliatory measures from other nations, possible tariff exemptions, public sentiment toward U.S. products and companies, and the domestic availability of lower-cost alternatives.

Additionally, with recent leadership changes at the U.S. Department of Health and Human Services and the U.S. Food and Drug Administration (“FDA”), as well as the Make America Healthy Again movement, the food industry is subject to increasing laws and regulations, including nutrition, food date labeling and traceability recordkeeping requirements, as well as changes in consumer expectations and behavior. For example, in April 2025, it was announced that the FDA intends to phase out the approved use of petroleum-based synthetic dyes in food products. While the Company has historically taken measures to remove certain food dyes from our products, and this did not have a material impact on our consolidated results for the three months ended March 30, 2025, the Company anticipates continued developments in food industry legislation and regulatory requirements, which may result in incremental costs to our business. The significance of the impact remains uncertain at this time, as the Company continues to monitor and evaluate the evolving legal and regulatory landscape.

As of March 30, 2025, we believe we have sufficient liquidity to satisfy our key strategic initiatives and other material cash requirements in both the short-term and in the long-term; however, we continue to evaluate and take action, as necessary, to preserve adequate liquidity and ensure that our business can operate effectively during the current economic environment. We continue to monitor our discretionary spending across the organization (see [Liquidity and Capital Resources](#) included in this MD&A).

Based on the length and severity of the fluctuating macroeconomic environment, including price volatility for our commodities, the possibility of a recession, changes in consumer shopping and consumption behavior, and changes in geopolitical events, including the imposition of tariffs and retaliatory tariffs, we may continue to experience increasing supply chain costs, higher inflation and other impacts to our business. We will continue to evaluate the nature and extent of these evolving impacts on our business, consolidated results of operations, segment results, liquidity and capital resources.

Results of Operations - First Quarter 2025 vs. First Quarter 2024

Net Sales

Net sales were \$2,805.4 million in the first quarter of 2025 compared to \$3,252.7 million in the same period of 2024, a decrease of \$447.3 million, or 13.8%. The net sales decrease was driven by a volume decline of approximately 15%, primarily related to everyday core U.S. confection, as a result of accelerated shipments in the first quarter of 2024 in anticipation of our enterprise resource planning (“ERP”) system implementation, which was completed in the beginning of the second quarter of 2024, and declines in our International reportable segment. Foreign currency exchange rates resulted in an unfavorable impact of less than 1%. The net sales decrease was partially offset by a favorable price realization of approximately 2%, driven by higher list prices across our North America Confectionery segment.

Key U.S. Marketplace Metrics

For the first quarter of 2025, our total U.S. retail takeaway declined 6.7% in the expanded multi-outlet combined plus convenience store channels (Circana MULO + C-Stores), which includes candy, mint, gum, salty snacks and grocery items. Our U.S. candy, mint and gum (“CMG”) consumer takeaway declined 9.0% and experienced a CMG market share decline of 46 basis points. Declines were primarily driven by the timing of Easter, which shifted into mid-April in 2025, compared to March in 2024. Our Salty consumer takeaway increased 9.6% in the first quarter of 2025 and experienced a Salty market share increase of 37 basis points.

The CMG consumer takeaway and market share information reflects measured channels of distribution accounting for approximately 90% of our U.S. confectionery retail business. These channels of distribution primarily include food, drug, mass merchandisers, and convenience store channels, plus Wal-Mart Stores, Inc., partial dollar, club and military channels. These metrics are based on measured market scanned purchases as reported by Circana, the Company’s market insights and analytics provider, and provide a means to assess our retail takeaway and market position relative to the overall category.

Cost of Sales and Gross Margin

Cost of sales were \$1,861.2 million in the first quarter 2025 compared to \$1,576.6 million in the same period 2024, an increase of \$284.6 million, or 18.0%. The increase was driven by \$618.9 million of higher costs, primarily due to unfavorable commodity costs from cocoa and \$251.6 million of unfavorable mark-to-market activity on our commodity derivative instruments intended to economically hedge future years' commodity purchases (See [Part I, Item 3 - Quantitative and Qualitative Disclosures About Market Risk](#) included in this Quarterly Report on Form 10-Q for more information). The increase was partially offset by \$334.3 million, primarily related to lower sales volume and lower supply chain costs, in line with the declines in net sales noted above.

Gross margin was 33.7% in the first quarter of 2025 compared to 51.5% in the same period of 2024, a decrease of 1,790 basis points. The decrease was driven by unfavorable activity on our mark-to-market impact from commodity derivative instruments, lower sales volume, unfavorable commodity costs, and unfavorable mix. The decrease was partially offset by lower supply chain costs and favorable price realization.

SM&A Expenses

SM&A expenses were \$558.7 million in the first quarter of 2025 compared to \$618.0 million in the same period of 2024, a decrease of \$59.3 million, or 9.6%. Total advertising and related consumer marketing expenses decreased 14.2% driven primarily by a decrease in the North America Confectionery segment, partially offset by an increase in North America Salty Snacks. SM&A expenses, excluding advertising and related consumer marketing, decreased 7.0% in the first quarter of 2025 driven by lower compensation costs across our reportable segments, as well as \$4.6 million of incremental business realignment costs.

Business Realignment Activities

We periodically undertake business realignment activities designed to increase our efficiency and focus our business in support of our key growth strategies. Excluding the portion recorded within Cost of Sales and SM&A expenses (as noted above), we recorded \$16.4 million business realignment costs during the first quarter of 2025. The costs in the first quarter of 2025 related to the Advancing Agility & Automation ("AAA") Initiative, which commenced in 2024, focused on leveraging new technology to improve supply chain and manufacturing-related spend, and optimize selling, general and administrative expenses. There were no business realignments costs in the first quarter of 2024. Costs associated with business realignment activities are classified in our Consolidated Statements of Income as described in [Note 9](#) to the Unaudited Consolidated Financial Statements.

Operating Profit and Operating Profit Margin

Operating profit was \$369.2 million in the first quarter of 2025 compared to \$1,058.1 million in the same period of 2024, a decrease of \$688.9 million, or 65.1%. The decrease was primarily due to lower gross profit and higher business realignment costs, partially offset by lower SM&A expenses, as noted above. Operating profit margin decreased to 13.2% in 2025 from 32.5% in 2024 driven by the same factors noted above that resulted in lower gross margin for the period.

Interest Expense, Net

Net interest expense was \$44.6 million in the first quarter of 2025 compared to \$39.8 million in the same period of 2024, an increase of \$4.8 million, or 12.1%. The increase was primarily due to higher long-term debt balances in 2025 versus 2024, driven by the February 2025 debt issuance.

Other (Income) Expense, Net

Other (income) expense, net was \$0.9 million in the first quarter of 2025 versus net expense of \$32.0 million in the first quarter of 2024, a decrease of \$31.1 million, or 97.0%. The decrease in net expense was primarily driven by \$31.4 million of lower write-downs on equity investments qualifying for tax credits in 2025 versus the first quarter of 2024, partially offset by an increase of \$0.7 million of non-service cost components of net periodic benefit cost relating to pension and other post-retirement benefit plans.

Income Taxes and Effective Tax Rate

The effective income tax rate was 30.7% for the first quarter of 2025 compared with 19.1% for the first quarter of 2024. Relative to the 21% statutory rate, the 2025 effective tax rate was primarily impacted by foreign tax differential and state taxes. Relative to the 21% statutory rate, the 2024 effective tax rate was impacted by investment tax credits partially offset by state taxes.

Net Income and Earnings Per Share-diluted

Net income was \$224.2 million in the first quarter of 2025 compared to \$797.5 million in the same period of 2024, a decrease of \$573.3 million, or 71.9%. EPS-diluted was \$1.10 in the first quarter of 2025 compared to \$3.89 in the first quarter of 2024, a decrease of \$2.79, or 71.7%. The decrease in both net income and EPS-diluted was driven by lower gross profit, higher business realignment costs and higher interest expense, partially offset by lower other income and expenses, lower income taxes and lower SM&A expenses. Our 2025 EPS-diluted benefited from lower weighted-average shares outstanding.

SEGMENT RESULTS

The summary that follows provides a discussion of the results of operations of our three segments: North America Confectionery, North America Salty Snacks and International. For segment reporting purposes, we use “segment income” to evaluate segment performance and allocate resources. Segment income excludes unallocated general corporate administrative expenses, unallocated mark-to-market gains and losses on commodity derivatives, business realignment and impairment charges, acquisition-related costs and other unusual gains or losses that are not part of our measurement of segment performance. These items of our operating income are largely managed centrally at the corporate level and are excluded from the measure of segment income reviewed by our Chief Operating Decision Maker, Michele Buck, Chairman of the Board, President, and Chief Executive Officer, and used for resource allocation and internal management reporting and performance evaluation. Segment income and segment income margin, which are presented in the segment discussion that follows, are non-GAAP measures and do not purport to be alternatives to operating income as a measure of operating performance. We believe that these measures are useful to investors and other users of our financial information in evaluating ongoing operating profitability as well as in evaluating operating performance in relation to our competitors, as they exclude the activities that are not directly attributable to our ongoing segment operations. Refer to [Note 13](#) Segment Information in our audited consolidated financial statements for reconciliations of net sales for our reportable segments to consolidated total net sales and of segment operating income to consolidated income before taxes.

Our segment results, including a reconciliation to our consolidated results, were as follows:

- (1) Includes centrally-managed (a) corporate functional costs relating to legal, treasury, finance and human resources, (b) expenses associated with the oversight and administration of our global operations, including warehousing, distribution and manufacturing, information systems and global shared services, (c) non-cash stock-based compensation expense, (d) acquisition and integration-related costs and (e) other gains or losses that are not integral to segment performance.
- (2) Net losses (gains) on mark-to-market valuation of commodity derivative positions recognized in unallocated derivative losses (gains). See [Note 13](#) to the Unaudited Consolidated Financial Statements.

North America Confectionery

The North America Confectionery segment is responsible for our chocolate and non-chocolate confectionery market position in the United States and Canada. This includes developing and growing our business in chocolate and non-chocolate confectionery, gum and refreshment products, protein bars, spreads, snack bites and mixes, as well as pantry and food service lines. While a less significant component, this segment also includes our retail operations, including Hershey’s Chocolate World stores in Hershey, Pennsylvania; New York, New York; Las Vegas, Nevada; Niagara Falls (Ontario) and Singapore, as well as operations associated with licensing the use of certain trademarks and products to third parties around the world. North America Confectionery results, which accounted for 82.0% and 83.2% of our net sales for the three months ended March 30, 2025 and March 31, 2024, respectively, were as follows:

In millions of dollars	Three Months Ended		Percent Change
	March 30, 2025	March 31, 2024	
Net sales	\$ 2,300.1	\$ 2,707.3	(15.0)%
Segment income	696.4	948.2	(26.6)%
Segment margin	30.3 %	35.0 %	

NOTE: Percentage changes may not compute directly as shown due to rounding of amounts presented above.

Results of Operations - First Quarter 2025 vs. First Quarter 2024

Net sales of our North America Confectionery segment were \$2,300.1 million in the first quarter of 2025 compared to \$2,707.3 million in the same period of 2024, a decrease of \$407.16 million, or 15.0%. The decrease was driven by volume declines of approximately 18%, primarily due to a decrease in everyday core U.S. confection as a result of accelerated shipments in the first quarter of 2024 in anticipation of our ERP system implementation, which was completed in the beginning of the second quarter of 2024. The decrease was partially offset by favorable price realization of approximately 3%, primarily due to list price increases on certain products across our portfolio.

Our North America Confectionery segment income was \$696.4 million in the first quarter of 2025 compared to \$948.2 million in the same period of 2024, a decrease of \$251.8 million, or 26.6%. The decrease was predominantly due to lower volume and higher commodity costs, partially offset by lower supply chain costs, favorable price realization, lower advertising and related consumer marketing costs, and net savings from the execution of our AAA Initiative.

North America Salty Snacks

The North America Salty Snacks segment is responsible for our grocery and snacks market positions, including our salty snacking products. North America Salty Snacks results, which accounted for 9.9% and 8.5% of our net sales for the three months ended March 30, 2025 and March 31, 2024, respectively, were as follows:

In millions of dollars	Three Months Ended		Percent Change
	March 30, 2025	March 31, 2024	
Net sales	\$ 277.8	\$ 275.1	1.0 %
Segment income	41.9	38.7	8.1 %
Segment margin	15.1 %	14.1 %	

NOTE: Percentage changes may not compute directly as shown due to rounding of amounts presented above.

Results of Operations - First Quarter 2025 vs. First Quarter 2024

Net sales of our North America Salty Snacks segment were \$277.8 million in the first quarter of 2025 compared to \$275.1 million in the same period of 2024, an increase of \$2.7 million, or 1.0%. The increase was due to volume increases of approximately 4%, primarily driven by *Dot's Homestyle Pretzels*. The increase was partially offset by unfavorable price realization of approximately 3% across our portfolio.

Our North America Salty Snacks segment income was \$41.9 million in the first quarter of 2025 compared to \$38.7 million in the same period of 2024, an increase of \$3.2 million, or 8.1%. The increase was predominantly due to volume increases, as noted above, lower supply chain costs, and net savings from the execution of our AAA Initiative, partially offset by unfavorable price realization and increased advertising and related consumer marketing costs.

International

The International segment includes all other countries where we currently manufacture, import, market, sell or distribute chocolate and non-chocolate confectionery and other products. We currently have operations and manufacture product in Mexico, Brazil, India and Malaysia, primarily for consumers in these regions, and also distribute and sell confectionery products in export markets of Latin America, as well as Europe, Asia, the Middle East and Africa (“MEA”) and other regions. International results, which accounted for 8.1% and 8.3% of our net sales for the three months ended March 30, 2025 and March 31, 2024, respectively, were as follows:

In millions of dollars	Three Months Ended		Percent Change
	March 30, 2025	March 31, 2024	
Net sales	\$ 227.5	\$ 270.3	(15.9)%
Segment income	28.7	42.8	(32.9)%
Segment margin	12.6 %	15.8 %	

NOTE: Percentage changes may not compute directly as shown due to rounding of amounts presented above.

Results of Operations - First Quarter 2025 vs. First Quarter 2024

Net sales of our International segment were \$227.5 million in the first quarter of 2025 compared to \$270.3 million in the same period of 2024, a decrease \$42.9 million, or 15.9%. The decrease was due to volume declines of approximately 8% across the segment, as well as an unfavorable impact from foreign currency exchange rates of approximately 8%, primarily driven by Mexico, Brazil and Latin America. The decrease was partially offset by favorable price realization of approximately 1%, primarily driven by Mexico, Brazil and Latin America.

Our International segment generated income of \$28.7 million in the first quarter of 2025 compared to \$42.8 million in the first quarter of 2024, a decrease of \$14.1 million, or 32.9%, driven primarily by volume declines, an unfavorable impact from foreign currency exchange rates, partially offset by lower supply chain costs and net savings from the execution of our AAA Initiative.

Unallocated Corporate Expense

Unallocated corporate expense includes centrally-managed (a) corporate functional costs relating to legal, treasury, finance and human resources, (b) expenses associated with the oversight and administration of our global operations, including warehousing, distribution and manufacturing, information systems and global shared services, (c) non-cash stock-based compensation expense, (d) acquisition and integration-related costs and (e) other gains or losses that are not integral to segment performance.

In the first quarter of 2025, unallocated corporate expense totaled \$160.4 million, as compared to \$172.9 million in the first quarter of 2024, a decrease of \$12.5 million, or 7.2%. The decrease was primarily driven by lower compensation and benefits costs, decreased investments in capabilities and technology, as a result of the completion of the upgrade of our new ERP system across the enterprise in 2024 and lower acquisition and integration related costs.

LIQUIDITY AND CAPITAL RESOURCES

Historically, our primary source of liquidity has been cash generated from operations. Domestic seasonal working capital needs, which typically peak during the summer months, are generally met by utilizing cash on hand, bank borrowings or the issuance of commercial paper. Commercial paper may also be issued, from time to time, to finance ongoing business transactions, such as the repayment of long-term debt, business acquisitions and for other general corporate purposes.

At March 30, 2025, our cash and cash equivalents totaled \$1.5 billion, an increase of \$784.5 million compared to the 2024 year-end balance. Additional detail regarding the net uses of cash are outlined in the following discussion. Additionally, at March 30, 2025, we had outstanding short- and long-term debt totaling \$5.9 billion, of which \$603.6 million was classified as the current portion of long-term debt. Of the \$603.6 million, \$300 million of 0.900% Notes are due upon maturity on June 1, 2025 and \$300 million of 3.200% Notes are due upon maturity on August 21, 2025. We believe we can satisfy these debt obligations with cash generated from our operations, issuing new debt, and/or by borrowing on our unsecured credit facility.

Table of Contents

Cash Flow Summary

The following table is derived from our Consolidated Statements of Cash Flows:

In millions of dollars	Three Months Ended	
	March 30, 2025	March 31, 2024
Net cash provided by (used in):		
Operating activities	\$ 396.7	\$ 569.2
Investing activities	(147.0)	(227.6)
Financing activities	537.1	(221.7)
Effect of exchange rate changes on cash and cash equivalents	(2.3)	(1.4)
Net change in cash and cash equivalents	\$ 784.5	\$ 118.5

Operating activities

We generated cash of \$396.7 million from operating activities in the first three months of 2025, a decrease of \$172.5 million compared to \$569.2 million in the same period of 2024. This decrease in net cash provided by operating activities was mainly driven by the following factors:

- Other assets and liabilities consumed cash of \$369.9 million in 2025, compared to \$22.3 million in 2024. This \$347.6 million fluctuation was primarily driven by the timing of certain prepaid expenses and other current assets.
- Timing of income tax payments generated cash of \$80.2 million in 2025, compared to \$147.5 million in 2024. This \$67.4 million fluctuation was primarily due to the variance in actual tax expense for 2025 relative to the timing of quarterly estimated tax payments. We paid cash of \$38.9 million for income taxes during 2025 compared to \$31.3 million in the same period of 2024.
- Net income adjusted for non-cash charges to operations (including depreciation, amortization, stock-based compensation, deferred income taxes, a write-down of equity investments, unrealized gains and losses on derivative contracts and other charges) resulted in \$49.8 million of lower cash flow in 2025 relative to 2024.
- The decrease in cash provided by operating activities was partially offset by the following net cash inflows:
 - In the aggregate, select net working capital items, specifically, trade accounts receivable, inventory, accounts payable and accrued liabilities, generated cash of \$55.4 million in 2025, compared to consumed cash of \$237.7 million in 2024. This \$293.0 million fluctuation was mainly driven by accounts receivable due to a decrease in sales, a decrease in accounts payable and accrued liabilities due to the timing of vendor and supplier payments, partially offset by higher inventory levels.

Investing activities

We used cash of \$147.0 million for investing activities in the first three months of 2025, a decrease of \$80.6 million compared to \$227.6 million in the same period of 2024. This decrease in net cash used in investing activities was mainly driven by the following factors:

- Capital spending.* Capital expenditures, including capitalized software, capacity expansion, innovation and cost savings, were \$145.5 million in the first three months of 2025 compared to \$213.3 million in the same period of 2024. The decrease in our 2025 capital expenditures is largely driven by the wind down of our key strategic initiatives, including completion of the upgrade of a new ERP system across the enterprise in 2024. We expect 2025 capital expenditures, including capitalized software, to approximate \$425 million to \$450 million, as capital spending as a percentage of sales is expected to return to historical levels. We intend to use our existing cash and internally generated funds to meet our 2025 capital requirements.
- Investments in partnerships qualifying for tax credits.* We make investments in partnership entities that in turn make equity investments in projects eligible to receive federal historic and renewable energy tax credits. We received payments of approximately \$3.6 million in the first three months of 2025, compared to investing \$13.9 million in the same period of 2024.
- Other investing activities.* In the first three months of 2025 and 2024, our other investing activities were minimal.

Financing activities

We generated cash of \$537.1 million for financing activities in the first three months of 2025, a increase of \$758.8 million compared to cash used of \$221.7 million in the same period of 2024. This increase in net cash generated in financing activities was mainly driven by the following factors:

- *Short-term borrowings, net.* In addition to utilizing cash on hand, we use short-term borrowings (commercial paper and bank borrowings) to fund seasonal working capital requirements and ongoing business needs. During the first three months of 2025, we used cash of \$1.2 billion to reduce short-term commercial paper borrowings and short-term foreign bank borrowings. During the first three months of 2024, we generated cash of \$569.9 million predominately through the issuance of short-term commercial paper, as well as an increase in short-term foreign bank borrowings.
- *Long-term debt borrowings and repayments.* During the first three months of 2025, we issued \$500 million of 4.550% Notes due in February 2028, \$500 million of 4.750% Notes due in February 2030, \$500 million of 4.950% Notes due in February 2032 and \$500 million of 5.100% Notes due in February 2035 (together, the “2025 Notes”). Proceeds from the issuance of the 2025 Notes, net of discounts and issuance costs, totaled \$2.0 billion. We had minimal repayment activity. During the first three months of 2024, long-term debt borrowings and repayments were minimal.
- *Dividend payments.* Total dividend payments to holders of our Common Stock and Class B Common Stock were \$271.6 million during the first three months of 2025, a decrease of \$1.8 million compared to \$273.4 million in the same period of 2024. Details regarding our 2025 cash dividends paid to stockholders are as follows:

In millions of dollars except per share amounts	Quarter Ended	
	March 30, 2025	
Dividends paid per share – Common stock	\$	1.370
Dividends paid per share – Class B common stock	\$	1.245
Total cash dividends paid	\$	271.6
Declaration date		February 5, 2025
Record date		February 17, 2025
Payment date		March 14, 2025

- *Share repurchases.* We repurchase shares of Common Stock to offset the dilutive impact of treasury shares issued under our equity compensation plans. The value of these share repurchases in a given period varies based on the volume of stock options exercised and our market price. In addition, we periodically repurchase shares of Common Stock pursuant to Board-authorized programs intended to drive additional stockholder value. Details regarding our share repurchases are as follows:

In millions	Three Months Ended	
	March 30, 2025	March 31, 2024
Shares repurchased in the open market under pre-approved share repurchase programs (1)	—	400.0
Shares repurchased in the open market to replace Treasury Stock issued for stock options and incentive compensation	\$ —	\$ 94.2
Cash used for total share repurchases (excluding excise tax)	\$ —	\$ 494.2
Total shares repurchased under pre-approved share repurchase programs	—	2.0

(1) In May 2021, our Board of Directors approved a \$500 million share repurchase authorization, which was completed as of March 31, 2024. In December 2023, our Board of Directors approved an additional \$500 million share repurchase authorization. This program commenced after the existing May 2021 authorization was completed and is to be utilized at management's discretion. As a result of the share repurchase authorization, approximately \$470 million remains available for repurchases under our December 2023 share repurchase authorization. We are authorized to purchase our outstanding shares in open market and privately negotiated transactions. The program has no expiration date and acquired shares of Common Stock will be held as treasury shares. Purchases under approved share repurchase authorizations are in addition to our practice of buying back shares sufficient to offset those issued under incentive compensation plans.

- *Proceeds from exercised stock options and employee tax withholding.* During the first three months of 2025, we received \$2.7 million from employee exercises of stock options and paid \$12.6 million of employee taxes withheld from share-based awards. During the first three months of 2024, we received \$4.1 million from employee exercises of stock options and paid \$26.4 million of employee taxes withheld from share-based awards. Variances are driven primarily by the number of shares exercised and the share price at the date of grant.

For information regarding the Company's critical accounting estimates, refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our 2024 Annual Report on Form 10-K. There have been no material changes to the Company's critical accounting estimates since December 31, 2024.

Safe Harbor Statement

We are subject to changing economic, competitive, regulatory and technological risks and uncertainties that could have a material impact on our business, financial condition or results of operations. In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, we note the following factors that, among others, could cause future results to differ materially from the forward-looking statements, expectations and assumptions that we have discussed directly or implied in this Quarterly Report on Form 10-Q. Many of these forward-looking statements can be identified by the use of words such as “anticipate,” “assume,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “future,” “intend,” “plan,” “potential,” “predict,” “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would,” among others.

The factors that could cause our actual results to differ materially from the results projected in our forward-looking statements include, but are not limited to the following:

- Our Company’s reputation or brand image might be impacted as a result of issues, concerns or regulatory changes relating to the quality and safety of our products, ingredients or packaging, human and workplace rights, and other environmental, social or governance matters, which in turn could result in litigation or otherwise negatively impact our operating results;
- Disruption to our manufacturing operations or supply chain could impair our ability to produce or deliver finished products, resulting in a negative impact on our operating results;
- We might not be able to hire, engage and retain the talented global human capital we need to drive our growth strategies;
- Risks associated with climate change and other environmental impacts, and increased focus and evolving views of our customers, stockholders and other stakeholders on climate change issues, could negatively affect our business and operations;
- Increases in raw material and energy costs along with the availability of adequate supplies of raw materials could continue to affect future financial results;
- Price increases may not be sufficient to offset cost increases and maintain profitability or may result in sales volume declines associated with pricing elasticity;
- Market demand for new and existing products could decline;
- Increased marketplace competition could hurt our business;
- Our financial results may be adversely impacted by the failure to successfully execute or integrate acquisitions, divestitures and joint ventures;
- Our international operations may not achieve projected growth objectives, which could adversely impact our overall business and results of operations;
- We may not fully realize the expected cost savings and/or operating efficiencies associated with our strategic initiatives or restructuring programs, which may have an adverse impact on our business;
- Changes in governmental laws, regulations and policies, including taxes and tariffs, could increase our costs and liabilities or impact demand for our products;
- Political, economic and/or financial market conditions, including impacts on our business arising from the ongoing conflict between Russia and Ukraine, could negatively impact our financial results;

- Disruptions, failures or security breaches of our information technology infrastructure could have a negative impact on our operations;
- Complications with the design or implementation of our new enterprise resource planning system could adversely impact our business and operations; and
- Such other matters as discussed in our 2024 Annual Report on Form 10-K and this Quarterly Report on Form 10-Q, including Part II, Item 1A, "Risk Factors."

We undertake no obligation to publicly update or revise any forward-looking statements to reflect actual results, changes in expectations or events or circumstances after the date this Quarterly Report on Form 10-Q is filed.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

The total amount of short-term debt, net of cash, amounted to net cash positions of \$1,371 million and net debt of \$576 million, at March 30, 2025 and December 31, 2024, respectively. A hypothetical 100 basis point increase in interest rates applied to this variable-rate short-term debt as of March 30, 2025 would have changed interest expense by approximately \$3.4 million for the first three months of 2025 and \$7.0 million for 2024.

We consider our current risk related to market fluctuations in interest rates on our remaining debt portfolio, excluding fixed-rate debt converted to variable rates with fixed-to-floating instruments, to be minimal since this debt is largely long-term and fixed-rate in nature. Generally, the fair market value of fixed-rate debt will increase as interest rates fall and decrease as interest rates rise. A 100 basis point increase in market interest rates would decrease the fair value of our fixed-rate long-term debt at March 30, 2025 and December 31, 2024 by approximately \$307 million and \$169 million, respectively. However, since we currently have no plans to repurchase our outstanding fixed-rate instruments before their maturities, the impact of market interest rate fluctuations on our long-term debt does not affect our results of operations or financial position.

Foreign Currency Exchange Rate Risk

We are exposed to currency fluctuations related to manufacturing or selling products in currencies other than the U.S. dollar. We may enter into foreign currency forward exchange contracts to reduce fluctuations in our long or short currency positions relating primarily to purchase commitments or forecasted purchases for equipment, raw materials and finished goods denominated in foreign currencies.

The fair value of foreign currency forward exchange contracts represents the difference between the contracted and current market foreign currency exchange rates at the end of the period. We estimate the fair value of foreign currency forward exchange contracts on a quarterly basis by obtaining market quotes of spot and forward rates for contracts with similar terms, adjusted where necessary for maturity differences. The potential decline in fair value of foreign currency forward exchange contracts resulting from a hypothetical near-term adverse change in market rates of 10% was \$29.0 million as of March 30, 2025 and \$32.3 million as of December 31, 2024, generally offset by a reduction in foreign exchange associated with our transactional activities.

Commodities—Price Risk Management and Derivative Contracts

We use futures and options contracts and other commodity derivative instruments in combination with forward purchasing of cocoa products, sugar, corn products, certain dairy products, wheat products, natural gas and diesel fuel primarily to mitigate price volatility and provide visibility to future costs within our supply chain. Significant changes impacting our commodity price risk management since our 2024 Annual Report on Form 10-K are described below.

Cocoa Products

During the first three months of 2025, the average cocoa futures contract price was \$4.30 per pound, with a trading range of \$3.63 to \$4.88 per pound, based on the Intercontinental Exchange futures contract. This average cocoa futures contract price represents an increase of approximately 25% compared to the 2024 annual average of \$3.45 per pound.

The cocoa supply-demand state is improving primarily due to favorable weather conditions, which have enabled the supply in Ghana and Ivory Coast to improve following the unfavorable 2023 – 2024 season. Additionally, supply in the rest of the world continues to expand rapidly; however, the increase in prices have negatively impacted the demand for cocoa. The price outlook for cocoa remains uncertain due to significant liquidity and volatility events in the market, which may have an impact on our financial condition and results of operations.

Our costs for cocoa products will not necessarily reflect market price fluctuations because of our forward purchasing and hedging practices (including amount and duration thereof), premiums and discounts reflective of varying delivery times, and supply and demand for our specific varieties and grades of cocoa liquor, cocoa butter and cocoa powder. We generally hedge commodity price risks for 3- to 24-month periods. As a result, the average market prices are not necessarily indicative of our average costs.

Commodity Sensitivity Analysis

Our open commodity derivative contracts had a notional value of \$274.7 million as of March 30, 2025 and \$667.4 million as of December 31, 2024. At the end of the first quarter of 2025, the potential change in fair value of commodity derivative instruments, assuming a 10% decrease in the underlying commodity price, would have increased our net unrealized losses by \$53.8 million, generally offset by a reduction in the cost of the underlying commodity purchases.

For additional information about our market risks, see Item 7A under Part II of our 2024 Annual Report on Form 10-K.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”)) designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management, with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company’s disclosure controls and procedures as of March 30, 2025. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of March 30, 2025.

Changes in Internal Controls Over Financial Reporting

There have been no changes to the Company’s internal control over financial reporting during the quarter ended March 30, 2025, that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

Information on legal proceedings is included in [Note 15](#) to the Unaudited Consolidated Financial Statements.

Item 1A. Risk Factors.

When evaluating an investment in our Common Stock, investors should consider carefully, among other things, the risk factors previously disclosed in Part I, Item 1A, “Risk Factors,” of our 2024 Annual Report on Form 10-K (the “2024 Form 10-K”) and the information contained in this Quarterly Report on Form 10-Q and our other reports and registration statements filed with the SEC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Issuer Purchases of Equity Securities

There were no purchases of our Common Stock made by or on behalf of Hershey, or any “affiliated purchaser” (as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, of Hershey, during the three months ended March 30, 2025.

During the three months ended March 30, 2025, no shares of Common Stock were purchased in open market transactions in connection with our standing authorization to buy back shares sufficient to offset those issued under incentive compensation plans, which authorization does not have a dollar or share limit and is not included in our share repurchase authorizations described in the following paragraph.

In May 2021, our Board of Directors approved a \$500 million share repurchase authorization, which was completed as of March 31, 2024. In December 2023, our Board of Directors approved an additional \$500 million share repurchase authorization. This program commenced after the existing May 2021 authorization was completed and is to be utilized at management’s discretion. As a result of the share repurchase authorization, approximately \$470 million remains available for repurchases under our December 2023 share repurchase authorization. We are authorized to purchase our outstanding shares in open market and privately negotiated transactions. The program has no expiration date and acquired shares of Common Stock will be held as treasury shares. Purchases under approved share repurchase authorizations are in addition to our practice of buying back shares sufficient to offset those issued under incentive compensation plans.

Item 3. Defaults Upon Senior Securities.

Not applicable.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

Director and Executive Officer Trading

A portion of our directors’ and officers’ compensation is in the form of equity awards and, from time to time, they may engage in open-market transactions with respect to their Company securities for diversification or other personal reasons. All such transactions in Company securities by directors and officers must comply with the Company’s Insider Trading Policy, which requires that transactions be in accordance with applicable U.S. federal securities laws that prohibit trading while in possession of material nonpublic information. Rule 10b5-1 under the Exchange Act provides an affirmative defense that enables directors and officers to prearrange transactions in the Company’s securities in a manner that avoids concerns about initiating transactions while in possession of material nonpublic information.

The following table describes the contracts, instructions or written plans for the purchase or sale of securities adopted by our directors or officers (as defined in Rule 16a-1(f) under the Exchange Act) during the three months ended March 30, 2025, that are intended to satisfy the affirmative defense conditions of Rule 10b5-1(c). No other Rule 10b5-1 trading arrangements or “non-Rule 10b5–1 trading arrangements” (as defined by S-K Item 408(c)) were entered into or terminated by our directors or officers during such period.

1. **EFFECTIVE DATE AND LEVEL OF AWARD.** Effective #GrantDate# (the “Grant Date”), Grantee has been awarded Restricted Stock Units (“RSUs”) representing #QuantityGranted# shares of Common Stock of The Hershey Company (“Hershey”). Each RSU represents the right to receive a share of Hershey’s Common Stock, \$1.00 par value, at a future date and time, subject to the terms of this Notice of Special Award of Restricted Stock Units (Replacement Equity) (the “Notice of Special Award”).

The Grantee will have forty-five (45) days to accept the terms of this Notice of Special Award. By accepting the award of RSUs under this Notice of Special Award, Grantee accepts and agrees to: (i) these terms and conditions, (ii) the terms and conditions of The Hershey Company Equity and Incentive Compensation Plan (“EICP”), which are incorporated herein by reference, and (iii) as applicable, the terms and conditions of The Hershey Company Deferred Compensation Plan, which are incorporated herein by reference. This award of RSUs is expressly contingent upon Grantee agreeing to the obligations contained herein. Failure to agree to all the terms and conditions set forth herein in the form presented by Hershey shall result in the RSUs being cancelled, with no benefit to the Grantee.

The terms of this Notice of Special Award extend not only to the Grantee and Hershey, but also to Hershey’s past and present affiliated and related companies, subsidiaries, joint ventures, affiliated entities, parent companies and its and their respective successors and assigns, its and their past, present and future benefit and severance plans, including the EICP and the terms and conditions of The Hershey Company Deferred Compensation Plan, and their representatives, agents, trustees, officials, shareholders, officers, directors, employees, attorneys, benefit plan administrators and fiduciaries, both past and present, in their individual or representative capacities, and all of their successors and assigns (collectively with Hershey, the “Company”).

2. **DEFINITIONS.** Wherever used herein, the following terms shall have the meanings set forth below. *Capitalized terms not otherwise defined in this Notice of Special Award shall have the same meanings as set forth in the EICP.*

(A) “Business Relationships” means the Company’s relationships with customers, suppliers, agents, licensees, licensors and others that likewise give the Company a competitive advantage.

(B) “Committee” means the Compensation and Executive Organization Committee of the Board of Directors.

(C) “Competing Business” means any business, person, entity or group of business entities, regardless of whether organized as a corporation, partnership (general or limited), joint venture, association or other organization that (i) conducts or is planning to conduct a business similar to and/or in competition with any business conducted or planned by the Company and for which Grantee was employed or performed services in a job or had knowledge of the operations of such business(es) over the last two (2) years of Grantee’s employment with the Company, or (ii) designs, develops, produces, offers for sale or sells a product or service that can be used as a substitute for or is generally intended to satisfy the same customer needs for, any one or more

products or services designed, developed, manufactured, produced or offered for sale or sold by the Company for which Grantee was employed or performed services in a job or had knowledge of the operations of such business(es) of the Company during the two (2) years prior to the termination of Grantee's employment with the Company. Grantee acknowledges that he/she will be deemed to have such knowledge if Grantee received, was in possession of or otherwise had access to Confidential Information regarding such business.

(D) "Confidential Information" means trade secrets and other confidential and proprietary information relating to the Company's business, including, but not limited to, information about the Company's manufacturing processes; manuals, recipes and ingredient percentages; engineering drawings; product and process research and development; new product information; cost information; supplier data; strategic business information; information related to the Company's legal strategies or legal advice rendered to the Company; marketing, financial and business development information, plans, forecasts, reports and budgets; customer information; new product strategies, plans and project activities; and acquisition and divestiture strategies, plans and project activities.

(E) "Deferred Compensation Plan" means The Hershey Company Deferred Compensation Plan and any successor or replacement plan thereof.

(F) "Dividend Equivalent Right" means a right that entitles the Grantee to receive an amount equal to any cash dividends paid on a share of Common Stock, which dividends have a record date between the Grant Date and the date a Vested Unit is paid. Dividend Equivalent Rights will be paid in cash.

(G) "EICP" means The Hershey Company Equity and Incentive Compensation Plan, as in effect from time to time and any successor or replacement plan thereof.

(H) "Material Contact" means contact for the purpose of furthering the Company's business.

3. VESTING DATES. The Grantee shall vest in the number of RSUs corresponding with each date shown below (each a "Vesting Date"); provided that the Grantee has remained in continuous employment with the Company from the Grant Date through such Vesting Date and has accepted and agreed to all terms and conditions in this agreement.

RSUs	Vesting Date
#VestQty_1#	#VestDate_1#
#VestQty_2#	#VestDate_2#
#VestQty_3#	#VestDate_3#

If prior to a Vesting Date, the Grantee's employment with the Company is terminated by the Company without Cause, or the Grantee terminates employment with Good Reason, then the unvested RSUs (and any related Dividend Equivalent Rights) subject to this Notice of Special Award shall vest in full upon the date of such termination of the Grantee's employment; provided, however, that any such vesting is contingent upon Grantee executing and delivering to the Company, in a form acceptable to the Company, a separation agreement containing a valid and enforceable waiver and release of all claims, which is not revoked.

If prior to a Vesting Date, the Grantee's employment with the Company terminates for any reason other than by the Company without Cause or by the Grantee with Good Reason, then the unvested RSUs (and any related Dividend Equivalent Rights) subject to this Notice of Special Award shall terminate and be completely forfeited on the date of such termination of the Grantee's employment unless the Grantee is entitled to any accelerated vesting of the unvested RSUs under the terms of the EICP or other Company-

sponsored plan or agreement or as described in paragraph 11(F) below, in which case such accelerated vesting of the unvested RSUs will be in accordance with the terms of this Notice of Special Award or the applicable plan, agreement or local law. Under the terms of the EICP, the Grantee or the Grantee's estate is entitled to accelerated vesting of the unvested RSUs upon the Grantee's termination due to total disability or death. In the event of a Change in Control, accelerated vesting of the unvested RSUs, if any, shall be determined in accordance with paragraph 15 of the EICP. Notwithstanding anything in the EICP or this Notice of Special Award to the contrary, if the Grantee is terminated for Cause from the Company prior to payment pursuant to paragraph 4, all of the RSUs will immediately and automatically, without any action on the part of the Grantee or the Company, be forfeited by the Grantee.

4. PAYMENT OF AWARD. Unless deferred under the Deferred Compensation Plan, an RSU that has vested ("Vested Unit") shall be paid in the form of a share of Common Stock, unless prohibited by applicable local law, in which case the Vested Unit will be paid in the cash equivalent, as soon as practicable following each Vesting Date or, if earlier, any accelerated vesting event in accordance with the terms of the EICP or other Company-sponsored plan or agreement, but in no event later than March 15 following the calendar year in which such RSUs vest. In addition, the Grantee shall be entitled to receive a lump sum cash payment equal to the Dividend Equivalent Rights with respect to any Vested Units at the same time as the payment for such underlying Vested Units.

5. NON-COMPETITION. Grantee acknowledges that due to the nature of his/her employment with the Company, he/she has and will have access to, contact with, and Confidential Information about the Company's business and Business Relationships. Grantee acknowledges that the Company has incurred considerable expense and invested considerable time and resources in developing its Confidential Information and Business Relationships, and that such Confidential Information and Business Relationships are critical to the success of the Company's business. Accordingly, both (i) during the term of his/her employment with the Company, and (ii) for a period of twelve (12) months following the termination of his/her employment, Grantee, except in the performance of his/her duties to the Company, shall not, without the prior written consent of Hershey's Chief Human Resources Officer, directly or indirectly serve or act in a consulting, employee or managerial capacity, or engage in oversight of any person who serves or acts in a consulting, employee or managerial capacity, as an officer, director, employee, consultant, advisor, independent contractor, agent or representative of a Competing Business. This restriction shall apply to any Competing Business that conducts business or plans to conduct business in the same or substantially similar geographic area in which Grantee was employed or, directly or indirectly, performed services for the Company during the two years prior to his/her termination of Grantee's employment. Grantee acknowledges: (i) that the Company's business is conducted throughout the United States and the world, (ii) notwithstanding the state of incorporation or principal office of Hershey, it is expected that the Company will have business activities and have valuable business relationships within its industry throughout the United States and around the world, and (iii) as part of Grantee's responsibilities, Grantee has conducted or may conduct business throughout the United States and around the world in furtherance of the Company's business and its relationships. Grantee further acknowledges and understands that if he/she has any question about whether any prior position which Grantee has held at the Company over the last two (2) years subjects Grantee to specific restrictions, and will be used to identify Competing Business(es), Grantee should contact his/her Human Resource representative at the Company.

6. NON-SOLICITATION. Grantee acknowledges that the Company has invested and will invest significant time and money to recruit and retain its employees and to develop valuable, continuing relationships with existing and prospective clients and customers of the Company. Accordingly, recognizing that Grantee has obtained and will obtain valuable information about employees of the Company and their respective talents and areas of expertise and information about the Company's customers, suppliers, business partners, and/or vendors and their requirements, Grantee agrees both (i) during the term of his/her employment, and (ii) for a period of twelve (12) months following his/her termination of employment, Grantee, except in the performance of his/her duties to the Company, shall not directly or indirectly (including as an officer, director, employee, consultant, advisor, agent or representative), for himself/herself or on behalf of any other person or entity:

- (A) for any purpose that is in competition with any of the aspects of the Company's business, solicit, take away or engage, or participate in soliciting, taking away or engaging, any current or potential customers, suppliers, agents, licensees or licensors of the Company with whom Grantee had contact while employed by the Company, or about whom Grantee had access to Confidential Information as a result of Grantee's employment; or
- (B) recruit, hire, or attempt to recruit or hire, or solicit or encourage to leave their employment with the Company (either directly or by assisting others), any Company employee with whom Grantee had Material Contact during the last two (2) years of Grantee's employment with the Company. Notwithstanding the foregoing, this paragraph shall not be violated by (i) general advertising or solicitation not specifically targeted at employees of the Company, or (ii) actions taken by any person or entity with which Grantee is associated if Grantee is not directly or indirectly involved in any manner in the matter and has not identified such employee of the Company for recruiting or solicitation.

7. NON-DISCLOSURE OF CONFIDENTIAL INFORMATION. Grantee acknowledges that due to the nature of his/her employment and the position of trust that he/she holds or will hold with the Company, he/she will have access to, learn, be provided with, and in some cases will prepare and create for the Company, Confidential Information. Grantee acknowledges and agrees that Confidential Information, whether or not in written form, is the exclusive property of the Company, that it has been and will continue to be of critical importance to the business of the Company, and that the disclosure of it will cause the Company substantial and irreparable harm. Accordingly, Grantee will not, either during his/her employment or at any time after the termination of his/her employment with the Company, use or disclose any Confidential Information relating to the business of the Company which is not generally available to the public. Notwithstanding the foregoing provisions of this paragraph 7, Grantee may disclose or use any such information (i) when such disclosure or use may be required or appropriate in the good faith judgment of Grantee in the course of performing his/her duties to the Company and in accordance with Company policies and procedures, (ii) when required by a court of law, by any governmental agency having supervisory authority over Grantee or the business of the Company, or by any administrative or legislative body (including a committee thereof) with apparent jurisdiction, or (iii) with the prior written consent of Hershey's General Counsel. Notwithstanding anything herein to the contrary, Grantee understands and agrees that his/her obligations under this Agreement shall be in addition to, rather than in lieu of, any obligations Grantee may have under any applicable statute or at common law.

Grantee is hereby notified in accordance with the Defend Trade Secrets Act of 2016 that Grantee will not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney solely for the purpose of reporting or investigating a suspected violation of law, or is made in a complaint or other document that is filed under seal in a lawsuit or other proceeding. If Grantee files a lawsuit for retaliation against the Company for reporting a suspected violation of law, Grantee may disclose the Company's trade secrets to Grantee's attorney and use the trade secret information in the court proceeding, provided Grantee files any document containing the trade secret under seal, and does not disclose the trade secret, except pursuant to court order.

8. ADDITIONAL RESTRICTIONS AND LIMITATIONS.

- (A) To the extent that the Grantee does not vest in any RSUs, all interest in such units, the related shares of Common Stock, and any Dividend Equivalent Rights shall be forfeited. The Grantee shall have no right or interest in any RSU or related share of Common Stock that is forfeited.
- (B) Upon each issuance or transfer of shares of Common Stock in accordance with this Notice of Special Award, a number of RSUs equal to the number of shares of Common Stock

issued or transferred to the Grantee shall be extinguished and such number of RSUs will not be considered to be held by the Grantee for any purpose.

9. WITHHOLDING.

(A) The Company's obligation to deliver shares of Common Stock or cash to settle the Vested Units and Dividend Equivalent Rights shall be subject to the satisfaction of applicable tax withholding requirements. The Grantee must pay to the Company any withholding tax due as a result of such payment.

(B) The Company shall have the right to reduce the number of shares of Common Stock issued to the Grantee to satisfy the minimum applicable tax withholding requirements.

10. OTHER LAWS. The Company shall have the right to refuse to issue or transfer any shares under this Notice of Special Award if the Company acting in its absolute discretion determines that the issuance or transfer of such Common Stock might violate any applicable law or regulation.

11. MISCELLANEOUS.

(A) This Notice of Special Award shall be subject to all of the provisions, definitions, terms and conditions set forth in the EICP and any interpretations, rules and regulations promulgated by the Committee from time to time, all of which are incorporated by reference in this Notice of Special Award. By accepting the RSUs awarded herewith, Grantee acknowledges and agrees that the RSUs are awarded under and governed by the terms and conditions set forth in this document and in the EICP, and the Employee Confidentiality and Restrictive Covenant Agreement (or similar or successor agreement), if any, applicable to Grantee. Any dispute or disagreement which shall arise under, as a result of, or in any way relate to the interpretation, construction or administration of the EICP or the RSUs awarded thereunder shall be determined in all cases and for all purposes by the Committee or any successor committee, and any such determination shall be final, binding and conclusive for all purposes. In the event of any conflict between this Notice of Special Award and the Employee Confidentiality and Restrictive Covenant Agreement (or similar or successor agreement), if any, applicable to Grantee, this Notice of Special Award shall govern. Grantee acknowledges that a remedy at law for any breach or threatened breach of this Notice of Special Award would be inadequate and therefore agrees that the Company shall be entitled to injunctive relief in case of any such breach or threatened breach. Grantee acknowledges and agrees that the Company may apply to any court of law or equity of competent jurisdiction for specific performance and/or injunctive relief (without posting a bond or other security) in order to enforce or prevent any violation of this Notice of Special Award and that money damages would not be an adequate remedy. Grantee acknowledges and agrees that a violation of this Notice of Special Award would cause irreparable harm to the Company. The Company's right to injunctive relief shall be cumulative and in addition to any other remedies available by law or equity. If a court determines that Grantee has breached or threatened to breach this Notice of Special Award, Grantee agrees to reimburse the Company for all reasonable attorneys' fees and costs incurred in enforcing its terms. However, nothing contained herein shall be construed as prohibiting the Company from pursuing any other available remedies for a breach, which may include, but not be limited to, contract damages, lost profits and punitive damages.

(B) (i) Grantee acknowledges and agrees that in addition to the relief described in paragraph 11(A), if the Committee determines, in its sole discretion, that Grantee has violated or threatened to violate the terms of this Notice of Award or the EICP, or that the Grantee has engaged in any intentional misconduct that caused the Company material financial or reputational harm, then Hershey may cancel any part of the grant that has not vested. In addition, upon the request or direction of the Committee, Grantee shall also immediately deliver to Hershey, the cash equivalent of any RSUs that have vested under this Notice of Award, inclusive of any dividends paid on any

vested shares. (ii) The term “intentional misconduct” shall include conduct the Committee determines indicates an intentional violation of law, the Company’s Code of Conduct, or any of the Company’s other material ethics and compliance policies. (iii) In determining whether to recover a payment, the Committee shall take into account such considerations as it deems appropriate, including whether the assertion of a claim may violate applicable law. The Committee shall have the sole discretion in determining whether a grantee’s conduct has or has not met any particular standard of conduct under the law or Company policy and whether any financial or reputational harm is material.

(C) Notwithstanding anything in the EICP or this Notice of Special Award to the contrary, Grantee acknowledges that the Company may be entitled or required by law or Company policy, to recoup compensation paid to Grantee pursuant to the EICP, and Grantee agrees to comply with any Company request or demand for recoupment.

(D) Grantee agrees that, at any time after Grantee’s termination of employment from the Company, he/she will cooperate with the Company in (i) all investigations of any kind, (ii) helping to prepare and review documents and meetings with Company attorneys, and (iii) providing truthful testimony as a witness or a declarant during discovery and/or trial in connection with any present or future court, administrative, agency or arbitration proceeding involving the Company and with respect to which Grantee has relevant information.

(E) If one or more of the provisions of this Notice of Special Award shall be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby and the invalid, illegal or unenforceable provisions shall be deemed null and void; however, to the extent permissible by law, any provisions which could be deemed null and void shall first be construed, interpreted or revised retroactively to permit this Notice of Special Award to be construed so as to foster the intent of this award and the EICP.

(F) Notwithstanding anything herein to the contrary, in the event the Grantee: (i) is an employee of the Company in a country other than the United States (a “Foreign National”), (ii) is not subject to the federal income tax laws of the United States (“U.S. Tax Law”) for purposes of these RSUs, and (iii) has certain rights in the vesting and payment of the RSUs upon termination of employment under the laws of the country in which Grantee is employed, the vesting and payment of any unvested RSUs (and any related Dividend Equivalent Rights) will be in accordance with the terms of a severance agreement entered into between the Company and Grantee that complies with the laws of the country in which Grantee is employed or in the absence of a severance agreement, as may be required by the laws of such country; provided, however, if any RSUs, granted to such Foreign National, are subject to U.S. Tax Law, the payment of such RSUs shall be governed by the terms of this Notice of Special Award.

(G) The award of RSUs and all terms and conditions related thereto, including those of the EICP, shall be governed by the laws of the Commonwealth of Pennsylvania. Grantee expressly consents that: (i) any action or proceeding relating to a breach or the enforceability of this Notice of Special Award will be brought only in the federal or state courts, as appropriate, located in the Commonwealth of Pennsylvania; and (ii) any such action or proceeding will be heard without a jury. Grantee expressly waives the right to bring any such action in any other jurisdiction and to have such action heard before a jury regardless of where such action is filed. The EICP shall control in the event there is a conflict between the EICP and these terms and conditions.
